**Kentucky Convict Killed.**  
Special to the Star.  
FRANKFORT, Ky., May 7.—Three convicts attempted to escape from the penitentiary this morning by scaling the wall with a ladder. Two of them, white, got away, but the third, colored, was shot and killed. The white men were afterwards recaptured.

## TO-DAY IN CONGRESS.

**HOUSE.**  
National Associated Press to the Star.  
WASHINGTON, May 7.—The House met at 10 o'clock this morning, the chief being to dispose of the Post-office Appropriation bill before 12 o'clock, in order that the rest of the day might be devoted to the consideration of private bills. There is not near a quorum present when the session met.  
The amendments made in Committee of the Whole were, however, taken up, and some of the least importance were carried by yeas and nays. The first amendment, upon which a separate vote was demanded, was that authorizing \$350,000 of the appropriation for transportation on railroad routes, to be used to maintain and operate from railroads the necessary special facilities for the postal service.  
The amendment was agreed to—yeas 110, nays 68.

The next amendment upon which a separate vote was demanded was the striking out of the proviso to the clause making an appropriation for inland transportation by Star routes, and inserting the clause requiring the reletting of contracts upon which the service has been expedited. This was carried by a yeas and nays vote.  
At 12 o'clock the House was called to order again. The Post-office Appropriation bill was immediately taken up and passed as amended.

## THE CONVENTIONS.

## Doings of the Delegates in Various States.

**MARYLAND REPUBLICANS.**  
FREDERICK, Md., May 7.—The Republican State Convention met at 12:30 p. m. yesterday. Mr. Stockbridge, on reading the list of delegates named those of the Grant Convention from the Second District of Baltimore City headed by W. T. Gillon. In the First and Third Districts he said there was an unexplainable contest which would have to be settled by the Convention. He also recognized the Baltimore Convention delegation headed by George H. Riley and Dettie R. Stockett.  
Mr. Matthews protested against the Baltimore delegates being ruled out.  
Colonel H. C. Neill, of Frederick, was elected Temporary Chairman by a vote of 52 to 44. This was a decided victory for the anti-Sherman men.

The Convention took a recess at 2:30 and was not called to order again till midnight. The Committee on Credentials, through James A. Gray, then reported in favor of making the temporary officers permanent. Delegates from Baltimore County, headed by George H. Riley were recognized, both delegations from the First Legislative District of Baltimore City were admitted and given three and one-half votes each. The Second District, recognized as by Mr. Stockbridge, and delegations from the Third District were admitted and given each three and one-half votes. The report was adopted almost unanimously.  
The following were elected delegates at large: Wm. J. Sewell, Geo. A. Halsey, Wm. W. Phelps, Judson Kilpatrick.  
The following persons were elected alternate delegates at large: Z. K. Pangborn, Chas. M. Theberath, Garrett A. Hobart, John I. Blair.

**NEW JERSEY REPUBLICANS.**  
TRENTON, N. J., May 7.—Of the eighteen delegates three are pronounced Sherman men. Half of the others have strong personal preferences for Grant. There is a strong probability of a divided delegation at Chicago, as there was at Cincinnati four years ago.  
The following were the delegates elected: General Kilpatrick, George A. Halsey, General Sewell and Wm. Walter Phelps.  
The following were elected alternates: Major Paulding, Charles M. Theberath, Garnett A. Hobart and J. Howard Willets.

**ANTI-THIRD TERMERS.**  
St. Louis, May 7.—The anti-third termers yesterday adopted a lengthy platform opposing the third term principle, with a preamble setting forth the belief that the Convention represented a majority of the R-publican voters of the United States, and for this reason assembled to express their convictions.  
They reaffirm their devotion to the Republican party, and, in view of present exigencies, especially reaffirm the declaration of the State Republican Conventions which opposed the third term. The nomination of a third term candidate would put the Republican party on the defensive, and, therefore, should be deprecated. It would revive the memory of public scandal and official corruption which brought the party to the verge of ruin, and would again alienate a large and powerful body of voters without whose aid success is not possible.  
It was resolved that a National Committee of One Hundred be appointed, and instructed in the event of the nomination of Grant, to meet at New York at the call of the Chairman, and there act in such manner as they shall deem best.  
Three cheers were given for the Anti-Third Term party, and the Convention adjourned.  
The Convention was remarkable for the few delegates present.

**NEW HAMPSHIRE REPUBLICANS.**  
CONCORD, N. H., May 7.—The Republican State Convention met at Phoenix Hall at 11 o'clock yesterday. Hon. H. B. House, of Manchester, Chairman of the State Committee, called the Convention to order, and announced a list of officers agreed upon, with General Aaron F. Stevens, of Nashua, for President. The Blaine delegate ticket, embracing the names of Wm. E. Chandler, of Concord; David Buffum, of Somersworth; Ruel Durkee, of Graydon, and Benjamin F. Prescott, of Apping, was elected.  
Benjamin A. Kimball, of Concord; John H. Broughton, of Portsmouth; James A. Wood, of Atworth, and A. A. Woolson, of

Lisbon, were chosen alternates by acclamation.  
The resolutions favor a currency based on gold; arraign the Democracy for its alleged recreancy to the principles of free government; approve the present attitude of the Administration upon the principles of the party, especially approve John Sherman's administration of the finances, congratulating General Grant on his safe return from a tour of the world, and fervently wishing that the remainder of his remarkable life may be made serene until its close, favor an unqualified delegation to Chicago, denounce the unit rule, and request the New Hampshire delegates to vote according to their judgment, but state that the man of the times above all others embodying every element of a triumphant candidate, and a successful administration, is James G. Blaine.  
The district delegates are all for Blaine.

**COMING ILLINOIS CONVENTION.**  
CHICAGO, May 7.—Up to last evening the number of votes secured for General Grant in the Springfield Convention, to be held on the 19th inst., was 264. 90 votes are guaranteed to him in Southern Illinois, making 354. As it requires 349 votes to secure the State delegation, Grant will thus have at first more votes than are absolutely necessary.  
Blaine has so far secured 139 delegates. Of these but about one-third are instructed for him, while nearly all of those set down for Grant are under instructions to vote for him by the County Conventions which have appointed them.

## HUNTING FOR HOSTILES.

## Troops Guarding the Border of the Ute Reservation.

## Hatch and His Men on the Trail of Victoria.

Special to the Star.  
DENVER, Col., May 7.—A Mesilla, N. M., special says that when the Apaches attacked the miners in the Mogollon Mountains they killed four men.

A report has been received that the horses of H. H. Whitehall, Sheriff of Grant County, and Barney Tiernan and Andrew Hunter, of Galveston, who were in the mountains prospecting, returned without their riders, and no trace can be found of the party.  
The wealth of Mogollon Mountain is proverbial, and the attention of miners throughout the country has been attracted to it.

Infantry detachments are guarding settlements at San Jose, Canada, Alamosa and at a dozen other points. General Hatch, with every available man, left Ojoalcote during Tuesday night on Victoria's trail. Victoria's force has been considerably augmented of late by the Mesquero Apaches, Comanches, and Ses Carlos Apaches and, escaped herders report, by young Navajo bucks. This is more than likely, as the Navajos are much dissatisfied with the present agent, Galen Eastman, and are getting restless. News of another fight is hourly expected.

**TROOPS GUARDING THE UTE RESERVATION.**  
NATIONAL ASSOCIATED PRESS TO THE STAR.  
LEADVILLE, Col., May 7.—James Berry, an old Colorado miner, just in from the Ute reservation, says ten companies of troops are camped south of Cochitopa Pass. The officers informed him that they had no instructions to keep the miners out only to prevent hostilities and be ready to remove the Indians.  
Some bands, supposed to be hostile, have been seen in the vicinity of Ruby City, on the Gunnison, but no demonstrations. A number of parties of prospectors have already started into the reservation from the Gunnison, and it is expected that a conflict will follow the Indians having sent word that they would not permit the miners to come in.
